ULTRA
PLUSH

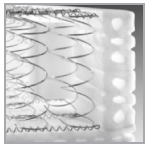

Our new Enhance beds feature:

SRx[®] Titanium Support
Sealy's unique graduated support provides excellent stability and reduced lateral movement.

DuraFlex Foundation
Designed to absorb shock and extend your bed's comfort life.

UniCased XT
Encases the support system to provide a stable sleep surface for an undisturbed night's sleep.

SmarTex
Special fabric feature designed to help keep you cool, dry and comfortable while you sleep.

Our comfort layers include:

Wool Fibre Blend
A natural fibre with excellent thermal properties.

Super Soft Quilt Foam
Provides a soft and indulgent level of conformance.

ComfortCore
High density foam that cushions movement and relieves pressure points.

Deep Memory Foam
Slow release foam, that cushions movement and helps to provide pressure point relief.

Premium Foam
High density foam that is resilient and relieves pressure points.

Durabond
Insulator layer enables a smooth transition from comfort layer to support system.

Deep Super Soft Foam
A deep layer of soft foam with a plush initial feel that relieves pressure points.
