

MATISSE

Ultra Plush

The Matisse quilt-fill layers include:

Cashmere Blend

Naturally soft and luxurious, with excellent thermal properties

Super Soft Quilt Foam

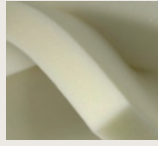

Provides a soft level of conformance, for an ultra-plush sleeping experience

The Matisse comfort layers include:

ComfortCore® Plus

Gel-infused visco elastic, provides superior conformance in the centre third of the mattress

Deep Memory Foam

Slow release foam, that cushions movement and helps to provide pressure point relief

Deep Premium Foam

A deep layer of high density foam, to provide resilience and pressure point relief

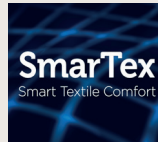

Durabond Insulator

Insulator layer that enables a smooth transition from the comfort layer to the support system

Soft Convoluted Foam

Conforms to the body for pressure relief and a soft sleeping experience

SmarTex™

A smart textile treatment that responds only when needed, to disperse heat and moisture so you can sleep more comfortably

Deep Super Soft Foam

A deep layer of soft foam with a plush initial feel, to help provide pressure point relief
