

# Features of Stressless® Sam & Stressless® Scott

The new ergonomically designed Stressless® Sam and Stressless® Scott recliner chairs have an in-built motor and a wealth of functional features for extreme comfort and support, in all positions. These generous, one-sized recliners have full 360° swivel, a fully integrated leg rest and are available in different design options.

## Motorized for choreographed movement

Both chairs come with three in-built motors, all individually operated by a slim and stylish remote control that attaches to the chair armrest by magnet. Adjust the controls to easily and effortlessly synchronize movements to support you back, legs and head. Simply hit the HOME button to move back to an upright position. Chairs without heating and massage functions are available with battery if you prefer to avoid cords.

## Designed for comfort

The ergonomically designed curved seat and back frame, incorporating Flexo springs, is shaped for support whilst layers of quality foam and fibres provide extra comfort. Experience the feeling of zero gravity in the reclining angle as the chair distributes your body weight evenly, reducing the strain on your muscles and bones, and avoids a gap in the lumbar region.

The fully integrated leg rest offers comfort for all leg lengths and the armrest height is perfect for reading or using your laptop.

## Plus™ system

Whether you are sitting or lying down, our unique Plus™ system provides optimal comfort and support for the lower back and head in all positions. The lumbar support automatically adjusts as you recline, filling in the gaps so you can sink deeper into the chair.

## Full 360° swivel with personal design options

Experience the feeling of freedom with our 360° Sirius aluminum cross swivel mechanism, available in brushed or matte black finish. The laminated round Disc base comes in Black, Natural or Whitewash oak Veneer and Walnut Veneer.

## Extra comfort

Add heating only, or heating combined with a light massage for intense relaxation.

Stressless® Sam and Stressless® Scott come with a 10-year warranty on the internal mechanism, a 5-year warranty on electrical parts, motor, heating and massage and a 2-year warranty on the battery.
