FURNITURE COLLECTION 2025

We are delighted to present our outdoor furniture collection for the 2025 season. In the collection you will discover a wide variety of designs and styles, carefully chosen to reflect current international trends.

The New Zealand made Eden wooden furniture collection is proudly manufactured in our Auckland factory where superior quality remains the highest priority. Complementing this collection is an exclusive range of imported woven wicker, aluminium and concrete designs, made only in factories that meet our high standards of quality.

## Outdoor Timber Characteristics

The wood used in our New Zealand made Eden furniture is either certified rosewood or Accoya® felled from sustainably managed forests. Both woods are very suited to outdoor use due to their inherent strength and density. Unlike kwila, both woods are almost non-bleeding.

Cracks, splits and twisting may appear in the timber, particularly on the end grain and to a lesser extent on the surface. This is natural behaviour of wood suitable for use outdoors, occurring as the natural oils and minerals evaporate with exposure to the sun, wind and rain. It is not a manufacturing defect.

## Outdoor Woven Wicker Characteristics

The woven wicker furniture is made from polyethylene (PE), which is a synthetic material designed to be lightweight but extremely hard wearing. PE is perfect for outdoor use as it is weather resistant to frosts, water and UV light (rated up to 3000 hours). The material is also very easy to clean.

Weaving the PE material around an aluminium frame provides a soft and supple seat surface that moulds to your body for maximum comfort.

## Maintenance – Eden Wooden Furniture

It is essential to establish a regular cleaning and maintenance programme to ensure New Zealand made Eden wooden furniture remains in good condition, colour and appearance. The product to use is dependent on the Eden model, so please ask in-store for advice on which product applies to your furniture.

It is important to read and follow the instructions on the can carefully before using any outdoor timber product.

## Maintenance – Stainless Steel\*

The New Zealand made Coast frames are 304 grade stainless steel. The stainless steel will still get small surface spots of rust (tea staining). To clean this, a very fine steel wool can be used with Autosol Metal Polish. After cleaning, coat the stainless steel with WD-40 spray to help protect the surface. Locations close to coastal areas require more frequent maintenance due to the effects of salt air.

\*Cleaning instructions do not apply to the powder coated matt black stainless steel frames.

## Warranty\*

Eden outdoor furniture made in New Zealand by Danske Møbler comes with a 5-year guarantee.

Excluding the Alfresco range and Bluebell and Lilac chairs, outdoor furniture imported by Danske Møbler comes with a 3-year guarantee. The cushion fabric comes with a 2-year guarantee.

The Alfresco range of chairs comes with a 2-year guarantee. Bluebell and Lilac chairs come with a 1-year guarantee. Use under shade and avoid over exposing to direct sunlight. Keep dry and indoors over winter. Avoid rain and heavy weather conditions.

Outdoor umbrellas come with individual warranties. Please enquire.

\*Warranty applies to the original owner for residential use only.

## NZ Made Wooden Tables by Danske Møbler

Discover the perfect dining table for your outdoor living space and family's lifestyle from our premium collection of exclusive classic and contemporary designs. Partner your table with Eden or E2 chairs and benches or mix'n'match from our imported collection.

## ACCOYA® WOOD

### Key Features and Benefits

Accoya® is the world's leading high technology long-life wood and one of the most durable, stable and sustainable materials to use in the manufacture of **outdoor furniture**.

Accoya® is made from New Zealand grown **sustainably** forested radiata pine, which is shipped to The Netherlands where it undergoes a proprietary acetylation process.

The process involves a pressurised injection system that alters the physical properties of the wood by changing the cellular structure. Essentially, the wood is pickled in a 100% **vinegar-type solution**.

The process is **non-toxic** and adds nothing to the wood that does not already naturally occur within it. Thus, Accoya® wood is **100% recyclable**.

**50 YEARS**

Accoya® wood has a **50-year guarantee** for outdoor use and is UV and rot resistant. Swelling, shrinkage and cracks may occur, which is natural behaviour of wood when used outdoors.

Accoya® wood has been awarded a range of accreditations and eco-certifications, as further support of its unique sustainability properties.
